INDEPENDENCE
MALL

Fishermen,

Here's your opportunity to preview the products and tackle for the 2004 season, talk with national tackle reps, includes salt and freshwater fly fishing exhibitors. Find great tackle deals and get ready for the upcoming season!

Featured Speaker:

If you read the credits of just about every Salt Water fishing show on TV you will undoubtedly read the words Laptew Productions. Why? Because there is only one true "Diving Fisherman". MSBA is proud to welcome back this years featured speaker.

Mike Laptew

Mike promises that this year's presentation will be nothing but Fish Porn. See a school of 40 plus pound Bass at Cuttyhunk. See Fluke and Stripers hunting down their Prey. See bonus footage from Mike's excursions in Costa Rica. Excerpts from Mike's new DVD are only the beginning of this custom Presentation Mike put together for our show.

Speakers:

Dave "Bassmaster" Manzi "Fishing Wood on Cape Cod"

Featured in many local publications and the Boston Globe, Dave is a master plug builder and Owner of Dave's Guide Service. This very successful shore guide's area of expertise is Cape Cod's Legendary back Beaches. Come get the skinny on how to fish wooden plugs the way and in the places the old timers did it. Large Stripers are back and the old ways have come back with them. This is where to learn how our forefathers did it.

"Crazy" Alberto Knie "Fishing Long Island"

So you have heard about the great fishing at Montauk Light, what about the rest of Long Island? Many New England High Liners know that they can extend their seasons and find some of the best Trophy fishing just a few hours drive away. Come learn everything from New York Legend and co-founder of the Aquaskinz Tackle Co.

Paul "The Extreme Surfcaster" Melnyk "Skishing Montauk"

Featured recently in more than one book on surfcasting, Paul has become a true legend of Montauk. Have you heard of Skishing? This Extreme form of surf casting employs the use of wet suits, flippers, waterproof reels and being towed around by monster Striped Bass. Come learn all about Montauk and this Extreme form of surfcasting from one of the guides that created the Technique.
